Regd No: S/96141

THEME: UNLOCK THE FUTURE

From the Editor's Desk

I would like to initiate Volume 16 of the Association Newsletter which shall henceforth be called "Cognizance" and shall be available in the electronic format in order to adhere to the Go Green philosophy. I convey my best wishes on behalf of the association for 2022 to all our member schools, publishers, contributors and readers. Let us look forward to a year where we are all less impacted by the ongoing pandemic and return to some sort of normalcy in whatever form that may now take.

When it comes to issues and solutions that affect the future of our world, it is important to listen to the voice of our young people, and consider and reciprocate to their demands.

The educators today are committed to working together keeping such priorities in mind and exploring how the barriers that prevent young people from shaping their own futures can be overcome.

As we set to Unlock the Future, we join together in setting pragmatic and practical goals for the benefit of our target group.

To conclude in the words of Mike Huckabee ***"Inside every human being there are treasures to unlock"*** –

Looking forward to such days to come.

SECRETARY'S MESSAGE

Dear Friends

I feel privileged to be able to wish all of you at this very special juncture in the glorious history of our association, our Silver Jubilee.

Our Association is a place for a happy exchange of best practices, our Conferences a venue for strengthening mutual understanding and fostering camaraderie.

The Council for the Indian School Certificate Examinations, our Council, communicates through circulars and mails, but we get opportunities to interact closely with Council officials through our meetings.

We are passing through a crisis ridden time and we could not meet physically for two long years and it fills our hearts with joy to be able to renew our bonds of friendship once again.

I for one believe our Council and our Association have unique roles in shaping tomorrow for our childhood in a radically changing world.

I am also glad that after two failed attempts we could organise our Conference in the Queen of Hills and in a setting so steeped in history and tradition.

Wishing each one of you all the best once again.
